Livestock Report

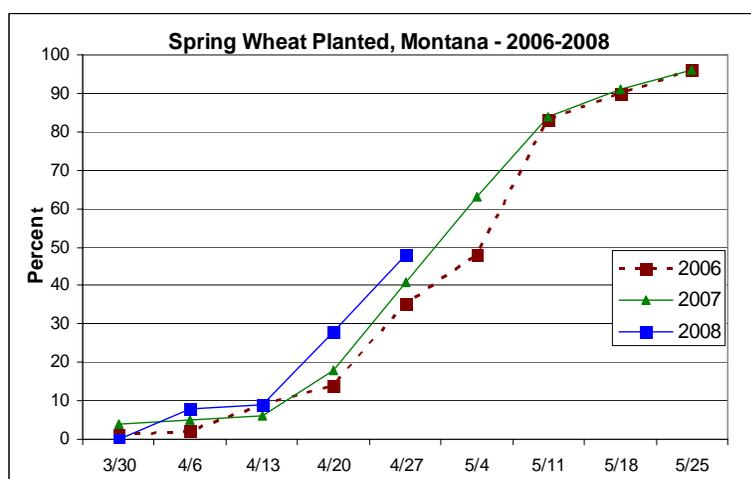

Ranchers have begun moving livestock off winter pastures and onto summer ranges. Some livestock have not been turned out yet due to cold temperatures. Overall, around 80 percent of cattle and sheep are still receiving supplemental feed compared to 65 percent last year. Range and pasture feed conditions remain worse than last year and the five-year average.

Field Crops Report

Most crops have a higher percent planted this year than last year. A few crops have started emerging, and winter wheat is starting the boot stage. Reports indicate that the poor moisture received this year has some farmers reseeding their winter wheat. Some farmers have started irrigation.
